This week we would like to inform readers that our newsletter is under unprecedented attack and that your support is needed now more than ever. One of our main intelligence sources in South Asia is being held indefinitely in prison under life-threatening conditions based on planted evidence and trumped-up charges. Another has vanished. Yet another was poisoned with ricin. Your correspondent has also been targeted over the past two months by no less than three poisoning attempts and survived with assistance from both NSA and Asian secret society sources. This work carries risks that we all understand, but there is no alternative except to fight on as the fate of humanity is at stake.

Also, this writer was physically stopped from attending a press conference at the Foreign Correspondents Club of Japan to prevent me from asking Japanese Defense Minister Kono Taro about the Fukushima mass murder event. Of course, similar harassment is being reported by multiple truth reporting media outlets.

This is all part of an incredibly hysterical propaganda war based around the so-called COVID-19 coronavirus. We are seeing fake news portals like the New York Times, Reddit, and the Drudge report filling over half their output with fake stories. If you see the words COVID, Russia, Trump, or Hong Kong in any of these, or related outlets, you are almost certainly reading fiction. As far as COVID is concerned, any reader can visit local hospitals and see what's happening with their own eyes.

It is true that old people are dying from pneumonia and other causes, as always. But now, hospitals are being ordered to bypass typical treatment protocols and put patients with any sort of breathing difficulty on ventilators that result in fatalities with insurance bribes as incentives to label unrelated deaths as COVID. The whole thing is a well-organized, coordinated fraud. And yet it is resulting in incredible economic damage and personal harm to millions of people.

The source of the COVID fake news infection has been forensically traced to the Knights of Malta and the P3 Freemason lodge.

Where have we seen this number before?

The original skull and bones can be found in St. Peter's Basilica in Rome, a church built by the mother of Emperor Constantine, founder of Roman Christianity.

To quote from Wikipedia:

“The number “322” appears in Skull and Bones’ insignia and is widely reported to be significant as the year of Greek orator [Demosthenes](#)’ death.<sup>[19][26][5]</sup> A letter between early society members in Yale’s archives<sup>[27]</sup> suggests that 322 is a reference to the year 322 BC and that members measure dates from this year instead of from the [common era](#). In 322 BC, the [Lamian War](#) ended with the death of [Demosthenes](#) and Athenians were made to dissolve their government and establish a plutocratic system in its stead, whereby only those

possessing 2,000 drachmas or more could remain citizens.”

[https://en.wikipedia.org/wiki/Skull\\_and\\_Bones](https://en.wikipedia.org/wiki/Skull_and_Bones)

The fact that this number celebrates the triumph of plutocracy over democracy tells us exactly who we are dealing with in this COVID conspiracy: the families who own the fortune 500 companies.

They are pulling out all the stops because their control grid is threatened by secret negotiations now taking place concerning the Bretton Woods financial architecture set up after World War II, according to members of the Rothschild family. This includes the World Bank, the Global Debt Facility, the International Bank for...

Reconstruction and Development, the BIS and the IMF, according to these as well as MI6 sources.

The talks between high-level Asian and Western secret society representatives intend to replace the current financial architecture, which is based on Babylonian debt slavery, with a system that will be kick-started with a jubilee and offer great prosperity to all, and not just the top 0.1%.

There is a lot we cannot discuss here because of the sensitivity of these talks and the very real physical danger the participants face. However, the Pentagon, the Asian Secret Societies, the British Commonwealth and many other powerful groups are backing the changes being discussed.

The main battleground remains the United States after President Donald Trump effectively nationalized the Federal Reserve Board's U.S. operations and the Chairman now reports to him. This, and not the fake COVID virus pandemic, is the real reason why Americans are being prohibited from traveling to Europe and so many other countries, NSA sources say.

The nationalization of the FRB in the U.S. is destroying many economic paradigms.

According to the Atlanta Fed, U.S. GDP had fallen by as much as 55% as of June 5<sup>th</sup>.

<https://www.frbatlanta.org/cqer/research/gdpnow>

If this was true then U.S. GDP, on a purchasing power parity basis, would be below that of India, making it the world's third-largest economy and not its superpower.

However, the data misses the fact that thanks to money sent directly to the people from the Nationalized Fed, most Americans are not seeing a 55% drop in income and many – especially near the bottom of the pyramid – are actually experiencing better living standards. Now NSA sources are reporting that 8 out of 10 Americans are will get relief from rent or mortgage payments. In other words, some sort of de facto jubilee has begun. No wonder the Babylonian slave masters are hysterically attacking Trump and his regime.

The main problem with the U.S., of course, is that most of the domestic industry has been moved overseas (mainly to China) and it will take years to rebuild. This is leading to

shortages of many goods, especially trinkets from China. That's why Walmart has begun selling used items.

The Europeans, still under Babylonian control, are now circling the wagons around Roman bloodline leader Angela Merkel. In an interview with 5 newspapers that was widely pushed by the corporate media Merkel said:

"We grew up in the certain knowledge that the United States wanted to be a world power. Should the U.S. now wish to withdraw from that role of its own free will, we would have to reflect on that very deeply... In a crisis of this magnitude...what needs to be done in this case is something extraordinary."

<https://www.theguardian.com/world/2020/jun/26/for-europe-survive-economy-needs-survive-angela-merkel-interview-in-full>

In the interview, Merkel made a veiled threat that the EU would move closer to China. Also, the fact Europe is banning visitors from the U.S. really means they fear ideological infection, because, as I know personally from visiting hospitals, the COVID excuse is fake.

Of course, the battle inside the United States is far from over as can be seen from violent paid protests, governors imposing restrictions on people, and severe, almost paralyzing infighting in Washington DC. This battle will intensify over the summer. But, at the end of the day, it will be the U.S. armed forces and police agencies who will prevail. For now, they are mostly rallying around Trump.

However, the thing the Q fighters rallying around Trump need to realize is that the U.S. is not an island. The rest of the world needs the U.S. military's help to protect the planet. The people of the world are also willing to pay generously for services such as peacekeeping, environmental protection, and exploration of the universe. We are facing a planetary crisis of extinction and environmental destruction and U.S. military has a key role to play.

Here is one example of the sort of thing that will happen if the U.S. armed forces do not protect the people of the Earth. Two of our South East Asian news sources were attacked and has a brush with death in hospital, most likely to prevent them from reporting a new genocide that has begun in Cambodia. The following report came from a third source, who, for reasons of personal safety, wants to remain anonymous:

#### Report from Cambodia

Since the 2012 election, Hun S'en and his party have been losing power, which was confirmed by the latest municipal election.

In reaction, Hun Sen decapitated the winning opposition party HSD. Then, Hun S'en declared the HSD party illegal. Now anyone who criticizes the government in any way is put in jail. Freedom of expression and of the press no longer exists. All television stations and newspapers belong to Hun Sen and his relatives [(sounds like they are learning from the U.S.)].

He benefited from a period of relative calm, after 5 years of Red Khmer (Khmer Rouge) and 5 years of Vietnamese occupation the people had started enjoying the new consumer society.

However, Hun Sen kept in power most of the former Red Khmers (Pol Pot) clique who did not evolve. He also lost the contact and support of the youth (60%) who see no future in the country.

The 6% official growth is due to factories (mainly Chinese) that wanted to benefit from preferential access to European Markets (EBA) and real estate, mainly for the Chinese. The real estate deals allow them to launder money, but do not create a viable economy.

This growth has enriched the Communist ruling class, leaving the people on the sidelines. Moreover, the country is being subjected to the systematic plunder of its resources (wood, Mekong sand, etc..).

The Corona crisis Scamdemic is making things even worse. Tourism is dead, most of the hotels are closed letting the employees go without any wages. They are then unable to feed their families in the countryside. The only food Cambodia grows is rice for export as most food is imported from Vietnam and Thailand but since all borders have been closed there has been no imported food for 3 months.

The Chinese have now left the country, construction is on hold and the factories are closed leaving the entire precarious economy for dead. Aggravating the circumstances, the government has promoted the use of microcredit, and now with the loss of income, most of the borrowers will not be able to repay their loans and will lose their money, house, or land to racketeers.

The schools are closed until 2021, which will cause the bankruptcy of most of the private schools.

The country is almost totally closed due to the new restrictions imposed to enter, a \$3,000 deposit upon entry!

The government stays in power only by terror and coercion, the situation will become tense within a month when the people will have no reserves anymore. The Premier is ready to pass emergency legislation, which gives HS and his communist cadre total power without any controls. In other words, Cambodia is facing Khmer Rouge 2.0

These are the sort of events that will take place around the world unless the White Hats stay engaged. The deal presently being negotiated will allow for the U.S. military to get even greater funding than they do now. Only this time, they will be defending the people and living creatures of the planet, not stealing resources for oligarchs. Of the three great Western power centers, London has responded positively. We now await answers from Washington and Rome.
