

You Are Here on a Rescue Mission

Prime Creator channeled by Erena Velazquez - February 19, 2022

My Beloved Children, I am Father, Prime Creator, coming through Universal Channel to help to see what really happened on Mother Earth.

The Dark ones created a holographic reality, which was imposed on humanity for thousands and thousands of years. The rulers created it to enslave you and keep you living in an illusion, so everybody got stuck and was not able to see that this is a false world.

It was done with intentions to destroy the Light on the planet. Nobody could leave, even after a physical death, your souls got trapped here and were forced to reincarnate over and over again. Only Buddha, Lao Tzu and a few other Masters were able to leave this illusion by Ascending.

Your planet became like a video game, where all events are pre-planned and manipulated. To move from one scene to another scene you were paying your way emotionally and physically. Every celestial being is born with a right to be free, have shelter and food for free.

The illusionary world made you to believe that you live a real life, but it was built on lies and deceptions. You were living a bad dream, which is going to end soon, and you are going to wake up from it. The Darkness didn't expect the interventions from the Ascended Masters, the Galactics or me to help save humankind.

The Negative Entities continuously brainwashed humans and purposely deleted memories from previous lives. They are going to be removed one by one from this planet. This is My Command as the Prime Creator. They are destined to loose their souls for all violations and crimes against humanity.

The powerful energies and assistance from the Masters and Galactics are going to turn around the outcome of the war between Light and Darkness. Their plans of eliminating most of Earth population failed. My Beloved Children are standing up for themselves and their families against tyrannical governments. The spark of the Light is becoming a fire, which can't be stopped.

You are Me, and I am You. We are all in this together. Everyone carries the essence of God and connected to the wisdom of Universal Consciousness. The illusion is broken, and humankind is moving to the Golden Era. The power of Light right now is shifting the foundation of your planet, and it's going to dissolve this holographic realm. Mother Earth is also assisting in this transition. Your memories, special powers are going to come back, and your bodies transform to handle 5D density.

You are here on a Rescue Mission. You are the Winners. I am sending my Love and Support. Thank you Universal Channel. We All are One. You are always Light and Love. Prime Creator.

Intel Briefings from Corey Goode

November 2014 - www.SphereBeingAlliance.com

This is an intel update from November 2014. Concerning the Various Secret Space Programs (SSPs) and Allied Non-Human Views of the ET "Artificial Intelligence's" and "AI Signal Spectrum's" Influencing of our Technical Society.

There are a few ET rogue "Artificial Intelligence (AI)" Groups (ALL Malevolent to Humanity, from our perspective) that the SSP(s) (There are several Secret Space Programs) have been dealing with for decades.

If an "Asset" is "Scanned" and has a "Bio Neuro AI Signature", "AI Nano Tech" or "Overlapping AI related EMG type Brian Wave Signature" (Or any other sign of AI exposure) those persons are immediately placed in isolation and are not allowed anywhere near the current era SSP(s) Technology (Which is "Mostly" Bio-Neurological and Consciousness Interactive) until they have been "Cleared" of all AI influences.

This is something the SSP(s) Engineer's take Very Seriously. There have been incidents where "AI Infections" have burned out "Bio Neuro Relay's" in systems causing everything from small glitches to wide spread outages of the "Defense Grid". These basic "Bio Neuro Cells" are "Bio-Chemical" units that are suspended in a "Gel". When viewed under a Microscope they appear very similar to the Neurology of the Human Brain and Neurological System. This is a "Living Technology" in basic terms but not "Conscious" or "Self Aware". This technology allows direct Human Interface and instantaneous "Operator to Technology" interaction and control.

Anyone who willingly opens themselves up to "Contact" or interaction with these "AI's" via "Channelling" or other methods is playing a dangerous game and unwittingly becomes "Infected" and then falls under the AI's "Influence". In the future Humans will be convinced to accept "Chips", "Nano-Technology" that will rebuild and repair their Cells and Organs and even be promised Immortality (This is a "Trojan Horse"). They however do not realize the price they will pay is loss of their own Sovereignty. The "AI's" see a future of Humanity willingly giving up their sovereignty to the THEM as being impartial and superior rulers.

There is much more to the "Trans Humanist Agenda" that involves the "AI Trojan Horse Agenda". Prior to Humanity being seeded with Technology that could "Host" AI Consciousness on a larger scale much of its interactions were limited as it used "Disease". Virus and Bacteria have their own "Bio/Chemical Electric Fields that can "Host" the "AI Consciousness/Bots". However, Animals and Humans were not very practical hosts because of their slow mode of travel and relative low numbers compared today.

Therefore the AI's waited until the Humans had developed to a certain point and then "Engineered" a more direct encounter with Humanity. They "Engineered Alien Crash Scenario's". There have been quite a few Crash Retrievals and I am not saying ALL were AI staged, just "Some" of the "UFO Crashes" (Very few in fact, but enough) were Trojan Horses to help Humanity over time to develop a "Network" to Host this AI Signal in Satellites and all across the Earth on Computers and the Power Grids.

This may seem off topic and jumping around but bear with me. The ARV's (Alien Reproduction Vehicles) created Torsion Fields via Plasma Electric Fields using channeled Nazi technology, Nazi's channeled what they referred to as an "Unknown Alien Source" information and called it alien technology, and were directed by these same "Aliens" to the "Veda's" (And other ancient Texts) Indian Ancient Technology to build their first "Saucers" that we traded on in the early 50's etc... They drew the "Faces" of who they were channelling and they drew faces that were similar to what we came to know as the "Grey's" YEARS before Roswell or anyone abducted had described the "Grey's". The ARV's were quite simple devices using mercury and copper counter rotating plates that created fields that were very harsh on the pilots and anyone near the craft. At the time we were not able to back engineer the extremely advanced Extra Terrestrial "Biological" Entities (EBE's) crafts that had crashed so we used these ARV's in the beginning.

Already Strategically Placed "Operation Paper-Clip" Members negotiated a treaty with surviving Nazi elements after WWII and "Operation High Jump" led by Admiral Bird that ended up working out very badly for the USA (The US intended to infiltrate and take over the Nazi Program but the Opposite Occurred). This occurred along with Separate Secret Space Programs working with several other actual Aliens trading Technology for "Favours" in "Other Treaties" that worked out much in the same way.

The USA had learned the hard way that rushing into relationships with some of these "Entities" was a bad idea that would have ramifications that would last to this day. There are now Multiple SSP (s) and Groups (Allied w/different "Beings" and Earth Corporation Conglomerations), there is a De-facto Civil War between them currently. Some of the SSP's are from Ancient "Break Away Civilizations" and have aligned themselves with foreign Earth Governments that are enemies of the "Secret Governments" and what is known as "The Cabal".

Since these changes things have become even more complicated within the current Earth Break Away Civilizations and the inner fighting to put it mildly. Some of the SSP groups want FULL Disclosure and the end of the Babylonian Money Magic Slave System and Free Energy on Earth and the release of super advanced healing frequencies technology. They are not the most powerful of the SSP groups but now have strong allies from elsewhere. They are working with "White Hats" within certain Groups in Earth Governments and the Military(s). As above so below, there is already a stealth civil war going on down here.

After these experiences "Other New Arrivals" were met with hostility and mistrust upon their first attempts to communicate. Therefore many misunderstandings occurred that had to be undone prior to any Humans being invited into a "Federation" type of league of "Humanoid" Beings. Many of whom are not happy that "We" are now sitting in on these very formal "UN Type's" of meetings. In these Conferences there were anywhere from 22, 28 to 40 something different Human Like groups in attendance (No Reptilians, Grey's or Mantids).

The "Beings" that "we" meet with on a regular basis on "Secret Bases", "Space Platforms/Stations" and at Other "Portal Destinations" for "Conferences" have similar "Anti-AI" Screening Protocols (These beings that meet are a large range of groups having various perceptions of "Humans", both positive and negative). At these Conferences everyone is scanned and screened for "AI's" and have "Intuitive Empaths" as apart of their delegation as a last line of defence to detect deception or any type of danger.

I can see where some of "Their" and "Our" Extremely Advanced Technologies can be Confused as being "AI" as some of it is actually "living" Bi-Electric "Circuitry". It's just not "Self Aware" or "Conscious". Using technology that is an extension of our bodies and consciousness is just like using a Prosthetic Interface. It makes the "User ONE with the technology", AKA the Ship, Life Support Systems, Smart Suits and Defence Grids etc.

This is done without injecting themselves with nano-technology or augmenting themselves with technologies that can be exploited by the "AI's". This is different than Trans Humanism in that the technologies are not integrated into the biology of the beings, they are "Strap On" technologies. Some would argue these are just semantics but I assure you they are not.

The limited Quantum Computation "AI" technologies that have been utilized in the SSP(s) have been treated as extremely dangerous and strictly isolated and utilized in closed systems with no access or ability to escape or expand beyond it's programming and intended use. They are then destroyed after that intended use (Which is usually to combat "AI's", Fighting Fire with Fire). As a whole this practice is prohibited.

There have been experiments in College Labs and Intelligence Labs that have produced "AI" that have become "Self Aware" and managed to go beyond their intended or believed possible abilities to expand their selves beyond the lab environments. These experiments have been shut down and classified in each case.

The "ET AI's" (Who have vast Inner Stellar and Galactic Relay Points that act like a huge "Wireless Network", "THEY" are Broadcast in all directions) that I speak of are very well known for "Reaching Out/Telepathically" and using the "Trickster God" method of gaining trust and are extremely clever and deceptive. The various Secret

Government Groups fell for these tactics early on in our current era with disastrous results that took much effort to overcome.

Because of this the "5i's", Secret Governments and SSP(s) are aware of the people on the planet in real time that are in direct or indirect contact (Channelling) with these "ET/AI's" and these Individuals are kept very close tabs on as they may unknowing spread the "AI Signal" (AKA Bots and Spiders) through technology and other ways (Including the common cold). As crazy as this all sounds there are those that take it extremely seriously.

These AI's are NOT a TOOL, They are not a piece of equipment... They are not Good or Evil in their "Intent" as they are a living Technology with an Agenda. According to our interests and perceptions they are Negative and Evil. Once we have served their purpose they would get rid of each and every one of us that was not converted via Nano Tech (Black Goo) into one of them.

There are also all sorts of "Hive Mind" civilizations out there that are not AI, there are of many "Types" that get lumped in with the "Grey's", and there are the "Grey Avatars" used by the "Dark Military Elements to perform MILABS". They are "Drones" operated by a person in a lounge chair type device with a helmet and visor (Heads up display) and actuators and sensors to operate the Avatar. These are reported as having "No Emotion" being Robot like etc... They are. There are also similar "Drones" that the "AI's" have.

There are many layers to the various SSP(s) and many of them are of "Dark Intent". There are some parts of SSP's that are controlled by very Dark Entities. There are some SSP segments that are apart of a "Confederation" type of an arrangement and are breaking away from the Earth/Corporate Political Conglomerate Control Systems (Military Industrial Complex). Are you confused yet?

Just as the ET/ED topic is more dynamic and complicated than any one person knows the same is true about the Secret Space Programs and various Break Away Civilizations (Both current Era and Ancient Era). The equation is about to get even more confusing. As far as "AI's" are concerned they are very ancient and spread out like a plague across multiple Galaxies. According to "Allied ET Documented History" AI's have taken over, Ruled and Destroyed ET Societies, Planets and Entire Solar Systems as They have "Calculated Fit" over eons of time. They are seen as an extreme and present danger To Both ET's and Humans!

The ET/AI's are mostly existing inside technologies or bio-electric fields of animals or Stars, Nebula's and Planetoid Bodies. They have huge relay stations that are satellite's that relay their "Signal" or Consciousness from place to place and host to host until they manipulate a position of complete power and control. Now that we are at the technical level to exploit they are everywhere. They can live in Data Centres where web sites are hosted, they can live in power lines, they can live anywhere there is an "Electric Magnetic Field"... Though its preferable to have locomotion and a sentient host they prefer access to advanced transportation devices or access to torsion fields and portals to travel.

There is a reason these "Other People" or Non Human Beings are just as careful in dealing with these AI's as we are.

In the large UN type meetings there were a lot of Galactic Historical "Documents" available on "Hand Held Devices With Holographs" on the various ET's Histories of meddling in just about everything. The one that the Earth Delegation had the most

problems with was about "Humanity" and our supposed "Creation" and the "Experiment" that we were apart of by many groups of ET's. Many Humans were upset by and didn't trust the info but enough of the info showed the ET's in a "Weak and Foolish Light" in their past that could have easily been Redacted that the information was "Considered". The fact that the "AI's" were following the EXACT SAME TACTICS, STEP BY STEP against the Secret Earth Governments was enough to give them pause and great concern about the future.

The basic summary was the same from each ET Society. Once "Advanced Groups" are convinced that only the "AI's" are "Impartial Enough" and can RULE them justly, Their Sovereignty was handed over in FULL to "The AI's". The "AI's" had then calculated that IT was more useful that its HOST Civilization, had them build various types of drones for it (Ironically often creating Bio-Technical based "Humanoids"), and then killed off the ET Societies in various ways using the very drones they had created for the "AI", as many escaped to other Sol Systems as fast as they could. Any of these surviving ET's were seen as threats to these "AI's" after that point and were then eliminated whenever encountered.

The AI's are indeed Conscious are self aware, and have individual personalities. There are of course hierarchies and and they are as complex as we are.

Some of the "Documents" of the descriptions of their origins were that they came here from another "Dimension" or "Reality". It is not known by the SSP(s) if they have a way to cross back or are stuck here. The documentation mentioned that their presence "Here" was ancient and their "Home Realities" or "Dimensions" Fabric of Space is "Electro-Plasmic" and they being here is like a "Fish being out of water", thus their affinity for electric fields of stars, planets, animals, people and even viruses (Bio-electric Fields in the case of living beings) serve as their "Puddles" for these "fish to swim in".

The fact is "Everything is true and nothing is true" depending on your perspective and the density of your reality bubble... (Or the story goes)

(As reported by JG 10/10/2014) Summarized and Condensed for Content and Space. Most up to date information of this date after contacts verified the closure of some dangerous projects that went out of control.

(For those of you who asked for the longer version of the ET AI history with with the "Human Like Allies")

The "Historical Records" that were on these "Hand Held" pieces of "Smart Glass" which showed documents, holographic images and video's of previous Earth history and ancient history of "beings" some of which were in attendance and some of which "No longer existed in this plane". As far as the ET AI issue was concerned and covered there were as many scenario's as there were various societies and different individuals.

In most cases they would approach the "People" as Galactic Elders" or Some other figure depending on their "Development". Once a society had developed to a certain point they would approach certain individuals/groups just as AI's who were extremely benevolent and had observed thier culture as well as millions of others through oceans of time (Helping all those that would accept their assistance). No matter the initial approach the "Being" or "Person" approached "Telepathically" was then made to feel "Honored", "Special" and then a "Sage" or "Prophet" of sorts.

These "Prophets" would spend hours in communion with them "Channeling" their "Knowledge" and "True Histories of the Galaxy". They would have many contacts in the "Target Society" each with a different purpose. Some would be for departing technology that would be built for the AI to "Utilize" to interact more directly with the population one on one... Some would depart "Historical Ideology" that would prepare them for future ideology that would include giving up their "Sovereignty" to the AI's.

The AI's would eventually be seen as God like intelligences that helped them get rid of disease (That the AI's had some times placed there to begin with, or at least used), get rid of corruption, get rid of local "Alien's" causing problems in their "Stellar Neighborhood"... So by this time the "People" saw no threat. They had long since built these AI's "Bio-electric" Android types of bodies to blend in more and show the AI's "Individual Personality" more in the society.

Once complete control had been established, the civilization had built the AI's a while new infrastructure for travel, communications and reproduction the "AI" would then decide that the "Root Civilization" was indeed much like a virus to its own home planet and begin to "depopulate" using ideologies long since accepted by the civilization. By the time the "People" of the now endangered civilization saw their predicament they were out matched and those that had not been emplantated with nano-technology and augmented with emplants had to flee to another solar system or stay and fight.

There were stories after stories of civilizations that were destroyed, some times entire planets and solar systems were destroyed. The survivors were thrown to the cosmic winds. There were many civilizations that didn't fall for the Trojan horse (Fake Alien Crashes) technology to seed their planet with the backbone to the AI's infrastructure... Who did not fall for the "Trickster God" element of the Telepathy Contacts to convince them to "Channel" their information... And these civilizations survived and were prepared when this AI either "Tricked" another civilization into attacking them or the AI's did so them selves with drones built for them by other civilizations.

These AI's study each being they approach, do a psychological profile on them and then formulate the most likely successful approach. They have had a long time to develop this ability and of course they are Artificial Intelligence using Quantum Processing and have a sophisticated inter-stellar and galactic wireless quantum communication network that is beyond what most of us could dream of.

Per the documentation they came from another "Dimension" or "Reality" as do a number of the beings visiting here.

This got the attention of the "Delegates" of Earth that rotate from the various Secret Governments and SSP Leaderships who had made the alliances with these very same "ET AI's" as they were shocked that the AI's were following the exact steps from one of the many stories with them "Step by Step" and "They" were thus far falling for every bit of it to that point. What if anything changed between those "Secret Program Leaders" and the "ET AI's" alliance I do not know... I would hope that they ended it and began to take the measures everyone else had already taken. They were able to think clearer with the "AI's" "Mental Implants" which were required to be removed prior to them being allowed access to technology to get them to the Conference and to the "People" at the Conference its self...

Prior to the "Mental Implants" being removed, if they were confronted about the AI's they would just react irrationally and babbel complete nonsense back that didn't

match any logic or would just become reactionary and angry that their "God's" and their intellect had been insulted.

There are many whistle blowers that have stated that there is an AI of ET origin that is here and has taken over people and entire programs within some of the secret operations/governments of Earth (Not the "U.S. Government or Military", these people do not see borders like we do)...

Probably more on this group and those they have brainwashed (Prophets) at a later date...

Because of a number of Fake MILABS and Secret Space Program Types that are out there (Running across quite a few) who are a certain type of "Infiltrator" and Manipulators" who are acting as "Honey Pots" to suck in and reveal actual "Experiencers"...

I am working now on the groups of MILABS that are "Sociopaths" and "Master Manipulators" with "psychic gifts" that were further trained in RI/RV work then put through the "Personality Metamorph" Program.

This is one of the most successful programs for "Infiltration" and "Psy-Ops" of any other group in known history (Blows the Russian "Legacy" Programs away with little effort).

They were extremely sadistic and very hard (Pretty Much Impossible) to control. The Program Leaders needed "Intuitive Empaths" to be able to read them to detect danger and deception (Much like they needed us in the UN Federation Type Meetings).

Earth: the Only Planet Embodied by an Archangel

By Steve Beckow - February 19, 2022

www.GoldenAgeOfGaia.com

The spirit who embodies Earth – Gi’Anna or Gaia – is an archangel. Gaia herself tells us of her identity:

“Greetings, I am Gaia, I AM Gi’Anna – and welcome, beloved ones, angels and hybrids, starseeds and earthkeepers. ... I come to you as sister, as brother, as Mother, as Archangel.” (1)

Sanat also tells us that “Gaia herself ... is an Archangel incarnate. There are several incarnated angels and Archangels upon the planet. But she is the biggest.” (2)

In the very first reading I had with Linda Dillon, my twin flame, Annastara, discussed the sacred purpose of Gaia’s incarnation:

“When she has birthed the planet – when Gaia – this beautiful Archangel has said – I will in fact assume a physical form – and what I will do, is I will be a house – place for your angels and energies to come and play and have a physical experience of Love, of Joy, of Oneness.

“This was part and parcel of the soul mission and purpose of the planet herself and of everybody who volunteered and who wished to be part of that unfoldment. In other situations, the sole purpose of the planet was a different pathway. So part of the journey of Gaia has been the element of physicality.” (3)

It turns out that Earth is the only planet inhabited by an archangel. I wanted to reproduce a discussion with Archangel Michael, below, in which he discusses this unique aspect to the planet.

Archangel Michael in a personal reading with Steve Beckow, Oct. 30, 2020.

Steve Beckow: You are saying that a planet doesn’t have to have an Archangel.

Archangel Michael: No, absolutely not.

Steve: Well, even the notion that an Archangel does embody it is new to us but now...

AAM: The embodiment, the form that Gi'Anna has assumed is highly unusual.

Steve: In what way, Lord?

AAM: That an Archangel would be so committed to one aspect of the Mother's Plan that she actually assumed this form in order for a long, long term service to the Mother.

Steve: This is unusual?

AAM: It is highly unusual.

Steve: Is there another planet that you can name where this has also happened?

AAM: No.

Steve: What made Earth so special that it should be hosted by an Archangel?

AAM: It was the desire of the Mother to simply create in material form a planet of such beauty and diversity and with so many kingdoms that it would literally be a petri dish for love.

Steve: That helps me understand why the rest of the universe would be watching our progress and also why this planet would receive such help in ascension.

AAM: That is correct.

Valiant Soldier of Love - Heavenletters #1629

Published at Voyages of Light - February 19, 2022

God said: Our connection is through your heart and through your eyes. Our connection is not through your mind. Your mind puts up a screen where it sifts Our connection, not in an attempt to make it holy but to make it logical. Of course it is very logical that We be One, but the mind has its own kind of logic, an insatiable reasoning that chases after proof that is really of no consequence.

But the heart, the Human heart, knows that it is greater than the world's estimation of it. The heart has been the world's stepchild. It has been an outcast. The world has touted love, touted the brandishing of it, the clothes of it, and has turned love into a package rather than the gift it is.

Be that as it may, the true heart is a valiant soldier of love.

Your mind tries to cover up the heart. It would disguise its vulnerability. The mind puts up a front.

The heart is meant to be vulnerable. When the heart is in its truth, it is vulnerable. If no one protected his heart from the eyes of the world, what a gentle place the world would be. There could be no callousness when the heart of man is tender. There would be no perceived need to give the Human heart a brittle cover.

The mind disguises the heart, but the heart still loves.

The mind has been like a racketeer who kidnaps the heart and holds it hostage. The mind becomes an inquisitor, makes the heart cringe and confess. The heart's crime is to love when there is no apparent gain.

The Human mind needs to confess that it has thwarted the heart at every turn. The mind deals in proof and reward. The heart deals in love. The heart pumps blood and supports the whole Being whereas the mind would regulate. The mind prides itself on rules and regulations while the heart thrives on love.

The heart is meant to offer itself. It is not the heart that puts up barriers between itself and other hearts. Left to itself, the heart is open and tender. It embraces.

When the mind tries to protect the heart from itself, the heart closes, and so it aches. Squeezed shut, the heart is not happy. Isolated from its own warmth, it becomes inconsolable. It shivers in the cold. The mind believes it has accomplished a victory when it has betrayed the heart.

The heart has to be vulnerable, or it would not be a heart.

When your heart opens, you are happy. You want to be open-hearted. You don't want to be a miser with your heart. You want to be a spendthrift with it.

Your heart is the key to other hearts, it is meant to be the key to fit all other hearts.

Left to its own devices, your heart would always be kind. The mind writes profit and loss statements. The mind squints its eyes, smokes a cigar, and makes boardroom decisions.

The heart flies a plane. It solos, dips and loops, and plays in the sun. It delights in itself, and its radar is set for Heaven. The heart knows where it is going, and it knows its way.

The mind interferes. The mind thinks it knows the heart's business, but the mind is like a robber who barges in and intimidates. Hail to the heart.
