

A Game of Conscious Evolution

The "team" through Peggy Black - April 15, 2022
www.MorningMessages.com

We have shared with you that this is a time of unparalleled opportunity, that all eyes are focused on your planet. Humanity on your planet has the grand opportunity to awaken from the illusion. Many realities and dimensions are watching because what happens here will affect the whole, will affect those realities and those dimensions. What happens here will affect the galactic family.

We begin this by sharing that there is much work to be done. We will also say there is much work being done across your globe. There are those awakened and looking around with new eyes. There are those who are awakening with fear and confusion. There are those of you who are awake and aware. It is your hands that will reach out to the others who are ready.

We have called you and those like you Bright Ones for it is your light, your energy, your radiance that precedes you. These are times of great shifts and changes on your planet. This is on every level and at every stage. You can sense or feel it.

Mass consciousness has been controlled through fear by your religions, your leaders, by your systems and your schools. These have been the programs, the vibrations that have been offered and have been taught. Everyone has been taught separation, prejudice, hatred, violence, mistrust, lack and scarcity. This is the undercurrent that runs through your planet.

Each human, each being, has the opportunity to realize their divineness, their connection with the whole, their connection with divine mind. Each human, each being at every moment, in every exchange has the opportunity to shift and uplift the connection.

They can continue to add to the fear, mistrust, and prejudice by their thoughts, words, deeds and actions or they can claim their divineness, their wholeness, their belonging to the all, belonging to the oneness. This is what is taking place in this moment of time here on your planet. All are observing from many realms...uncertain of the outcome.

Each person is critical to the plan, to the awakening. Each person has the responsibility as a galactic citizen to realize who they are and to step into the place which radiates love and gratitude. Everywhere, there are those awakening to this purpose. This is an evolutionary shift in consciousness, it is critical to the survival of your planet.

Everyone is more aware of the total connectedness. Your internet is serving as an example of communication, like the energy communication from other dimensions. Earth is very much like

the reflection in physical matter of the energetic patterns and geometric shapes carried by the frequencies, the vibrations through the dimensions.

Think of the dimensions not so much as going up but more like nested together, one inside the other, each in turn affecting the other. What happens in the galaxy ripples from the movement of the stars and is manifest on your planet. What happens on your planet, the energy from mass consciousness, ripples and is received by the galaxy. It is all one.

You as a human, with a body; carry within yourself a reflection of the stars, moon and sun. You carry an aspect, a reflection, an interface with the galaxy. Remember this is a game of evolution, a game of consciousness, a game which allows all energetic signatures to be experienced. You as human are like the most sophisticated, refined, highly developed probe that could be designed. You are information gatherers, sensing, feeling and ever expanding from Divine Mind. Planet earth has been a wonderful extension of Divine Mind.

The human body co-joined by spirit, interfacing with all possibilities, all emotional experiences, all thought forms, this is the incredible journey and opportunity in which non-physical beings long to participate. You are one of those selected to be in the wave, this group experience. Divine Mind is ever expanding through you and your experience.

The human body co-joined by spirit has capabilities that have not even been revealed at this time. There are those with whom these abilities were more visible and they are called your avatar, your Christ. All humans have the same connections, the same abilities, the same qualities and the same programs to work with energy and this physical reality in a more advanced, aware, awake way. The goal is to realize and activate the latent abilities to align group energy and group mind with the galaxy and with mother earth, all in one energetic flow, an example of nested realities.

We and many like us are contacting the "receptive ones" encouraging this shift within.

Each person adds to the grid of consciousness. They add to the fear or the love. It is always your choice. Each time you choose fear, worry, mistrust, prejudice, judgment, you are assisting the old paradigm to remain. Each time you choose love, joy, gratitude, any higher vibrational emotions you are assisting the new paradigm to manifest. This is a game. We are in the last quarter, it is a close game. It has been played out for thousands of years.

There has been cosmic support which has been assisting humanity to awaken. There are codes within each being, each human that are being activated, awarenesses are expanding. There is a waking up from the illusion that you are powerless. You are each masters, highly qualified, skilled beings who have cloaked themselves with flesh and stepped into a dimension, a reality, a game in order to transform the energy as the Alchemist.

The energy consciousness of Divine Mind vibrates, moves, shifts and flows through all.

Each one is responsible to wake and realize their part in this energetic flow. Each one is responsible for the thoughts, feelings and actions that they put forth into this grid. Do you put forth fear, hatred and chaos or joy, love and peace. Each moment it is your choice as to what you send forth. Practice sending forth only your best. Practice breathing, walking, sleeping and interacting as joy, love and peace.

Invite and call forth divine support in transforming events and energy that is negative and misqualified, harmful and hate filled. Focus your prayers and energy and send your love and light as the energy that will transform it all.

Begin by loving yourself. Begin by honoring yourself. Then love and honor others. We bathe you in our love and we honor who you are. Be at Peace Beloved, the 'team'

The Awakened Collective that the ET's are Waiting For

The 9D Arcturian Council via Daniel Scranton - April 15, 2022

Published at www.DanielScranton.com

"Greetings. We are the Arcturian Council. We are pleased to connect with all of you. We are extremely satisfied with the progress that we can feel you making within your collective consciousness there on Earth. More of you are awake on Earth than at any other point in human history. This means that you have the collective power to see great changes there on your planet, but it also means that you must let go of the beliefs that separate you in order to harness your collective power as the awakened collective.

You must let go of the ideas that are putting you in one camp or another so that you can be free, finally, to unite, to come together, in order to change the world for the better. And so, rather than focusing on the details that you disagree on, we invite you to focus on the truths that you can agree upon.

We are talking about the truths that include your sovereignty as Source Energy Beings and creators, and we also know that you can agree that there need to be changes there on Earth to make it a more harmonious world, where everyone is free, respected, and where people stop fighting over what religion is right and stop fighting over resources like oil, and the boundaries that separate you, the borders that are completely unnecessary.

You are one human race, and those of you who are awake have a unique opportunity to come together, in spite of your different opinions and perspectives. You all have the opportunity to be the collective that extra-terrestrials, who are waiting in ships in your atmosphere, are waiting for you to be. They want to connect with a unified humanity, one that they know they can trust, and they also want to see you evolving to the point where you don't see different as scary or bad. Embrace the differences between yourselves and other people within the new age and spiritual community.

It's better that you don't agree on everything, because you don't want to become a cult. You want to honor that diversity that exists, and also see the Source Energy in each and every one of your fellow humans, so that you can come together as the harmonious whole that is and will be the fifth dimensional society you seek to create. We are the Arcturian Council, and we have enjoyed connecting with you."

Humankind is Awakening to a Higher Light

*Lynn Buess, MA, EdS, International Astrologer
Published in Sedona Journal of Emergence - May 2022*

Global and national events may have an impact on your life this month or soon. Old religious institutions come under scrutiny by members who are being awakened by the inspiration of a higher light. Dogma is being questioned, and corrupted human-made scripts are being left behind. The spirit of Christ touches more within churches, and other sects are elevated in faith and manifestation of the Word to believers.

Dark forces attempt to stir global conflict by beating the drums of war. Some ancient demons seem to be stirred and addressed. The unacceptable rate of “super inflation” and a deteriorating economy has everyone worried. The significance of Gitmo, Antarctica, Greenland, and Denver are becoming more apparent to the slowly waking masses.

May 4, 2022, stands out as a day of likely consequences in humankind's aspiration for ascending into a more substantive state of a place in the stars.

The Magical, Mystical Conjunction: Jupiter and Neptune in Pisces

*Raquel Spring - a Fourth Generation Astrologer
Published in Sedona Journal of Emergence - May 2022*

In astrology, a conjunction occurs when two or more planets in a chart are near each other from the perspective of Earth. A conjunction is the most powerful connection between two or more planets and is more important than any other planetary relationship. A conjunction is neither good nor bad; it is simply the blending of energies.

Yet a conjunction is much more than proximity and influence. It is the merging of forces, of two or more powers. It is a melding together to experience ultimate fusion and union. This powerful melding of energies will occur during the rare and unique conjunction between Jupiter and Neptune.

Jupiter and Neptune will conjunct at 23 and 24 degrees of Pisces. This conjunction will be exact from April 8 to April 17. However, because of their slow movement, you will feel their influence extend throughout the months of March, April, and May 2022. Astrologers and astrology lovers from around the world have been eagerly waiting for this rare cosmic alignment that will open the doors of spirit, bridge dimensions, and bring a new level of spiritual guidance and spiritual authority to many.

The Potent Combination of Jupiter and Neptune

It takes Jupiter twelve years to travel through the zodiac, and Neptune takes 165 years. These two planets don't come together often. As a matter of fact, the last time Jupiter and Neptune were conjunct in the sign of Pisces was in 1856 (166 years ago).

While in Pisces, Jupiter and Neptune share fertile ground to explore their idealism, fervor, vision, and optimism. Both planetary energies are led by passion, vision, and mission. When they are present, they can open the doors to spirit and lift the soul in unique ways.

Jupiter is the planet of expansion through knowledge. Jupiter loves to operate through the

mind and bridge the wisdom and truths of God with the language and laws of humanity. Because of this, you often see Jupiter in association with law, authority, government, teachers, masters, mentors, and figures who represent some higher authority and hold a degree of social influence in the world.

Jupiter in your birth chart will reveal where and how you can achieve authority, mastery, and influence in the world. Take a look at your astrological birth chart to find the sign and house where Jupiter is located. That house reveals the area of life where its energies are focused. The sign Jupiter is in reveals how you can best express its qualities.

Neptune's natural expression is imbued with rapture, bliss, beauty, and ecstasy. Wherever it goes, there is a sprinkle of glitter and a gloss of mystery. Ultimately, Neptune's deepest longing is to surrender and merge with spirit. In a birth chart, Neptune can show where and how you move beyond the body to transcend the physical experience to connect, commune, and merge with the Divine.

Neptune communicates through the unconscious mind and speaks through multidimensional language, which includes imagination, storytelling, dreams, intuition, meditation, art, music, poetry, prayer, and nature. When you ignore these aspects of Neptune in your chart, these same energies can also become an area of apathy, confusion, daydreaming, addiction, fantasy, and illusion for you.

Take a look at your birth chart to see where and how you are moved by this energy. In your astrological birth chart, Neptune's house reveals the area of life where its energies are focused. The sign Neptune is in reveals how you can best express its qualities.

The Mystical Energy of Pisces

Much like Neptune, Pisces yearns to transcend the human experience, commune with spirit, and dance with the Divine. Music, art, and nature are some of its tools. Creativity, imagination, dreams, meditation, and magic are its doorways into these realms.

Innately spiritual, receptive, and compassionate, Pisces is often connected to the collective consciousness and attuned to other dimensions. Pisces sees the physical world as fleeting and transient. Pisces is the natural clairvoyant, poet, artist, musician, healer, philanthropist, teacher, and caregiver, whose primary mission is to love and heal.

Look at your birth chart to see what area of life is ruled by Pisces. The house Pisces is in will reveal where you naturally seek this state of communion with spirit and gentle expression.

What to Expect

If you are attuned during this time, you can expect to experience strong spiritual activity, brand-new guidance, spiritual authority, miracles, power, and upliftment in some way. Again, the house Pisces is in will reveal more.

These experiences may be accompanied by a sense of destiny or a higher calling and create a portal for gifts, blessings, and miracles to come through. However, as always, stay tuned in to your truth. During this time, you might also see some of the distorted expressions of this same energy. They can appear as spiritual arrogance, blind faith, and deceit. It's also possible that key personalities in the areas of spirituality, religion, entertainment, government, military, and politics will reflect this.

To all who are listening, this powerful time of alignment will reveal new truths and open doors to Spirit in profound ways. Rapturous upliftment, miracles, revelations, and new spiritual

blueprints are ready to stream from consciousness into experience. The frequency of Christ consciousness that is broadcasting on the planet will become a glorious surge. You might feel it as a wave of compassion, forgiveness, gentleness, and spiritual attunement sweeping in.

Because of this profoundly enhanced connection to spirit, this is a great time for healers, teachers, and those who work with spirit in some way to experience a new phase of their work. People in general will be seeking deeper truths and to enhance their knowledge and states of spirit during this time. These experiences could also bring guides, teachers, mentors, friends, lovers, family, or masters from other lifetimes or dimensions into your experience. Pay attention to this portal, as it's a unique window of opportunity to connect with spirit in a deeper way.

How to Make the Most of This

During this exquisite conjunction, set your intention to make use of this portal. If you're not looking, it can go by unnoticed. However, now that you know, you are encouraged to notice and consciously open that door to invite these spirit and miracle-filled energies in. During the three-month period of the conjunction, the influence of Jupiter and Neptune in Pisces can inspire you to renew your ideals and visions, see the bigger picture, and be lifted into your spiritual evolution. You may feel a sense of renewed truth, a rekindled vision, or a new calling that is birthing in your heart. This time will reveal new truths and open doors to Spirit in profound ways.

As this portal opens, dive deeply into your meditations, rituals, retreats, and ceremonies. Make choices and decisions that will lead you deeper into these evolutionary experiences. When you purposely tune in to this conjunction, you are cocreating through your intention and awareness.
