

Apocatastasis - Transformation into the Light

Cobra Report - April 14, 2022

Published on the Portal - Intelligence Hub for the Victory of Light

There are more and more signs that we are approaching the end of the cosmic cycle. The current solar cycle 25 is much stronger than it was previously predicted:

<https://www.dx-world.net/solar-cycle-25-update/>

<https://spaceweatherarchive.com/2022/04/06/solar-cycle-update-the-gap-is-growing/>

The real reason for stronger solar activity is synchronization of the Sun with increased activity of the Galactic center on the quantum level. In preparation for the Galactic Pulse, a huge cosmic fleet of positive civilizations from the Local galaxy cluster has gathered around the heliopause of this solar system. This is one of the largest fleet gatherings in the history of the whole universe. These ships will harmonize and direct the flow of energies when the Pulse happens.

One small part of this fleet is already inside the solar system and is putting the last remnants of the Chimera fleet under siege. Another small part of this fleet is constructing Dyson spheres around the Sun and the Earth and both projects are proceeding well. As soon as the Chimera fleet is completely defeated, more of the cosmic fleet will enter the Solar system and proceed into the sublunar space with the purpose of the final liberation of this planet.

There is still quite much quantum and subquantum primary anomaly close to the surface of planet Earth. The Light forces are carefully beginning to clear the physical aspect of the anomaly and they are also beginning with the final clearing of the toplet bombs. They are deactivating the toplet bombs by clearing the quantum anomaly since with quantum anomaly gone, the Light forces are able to stop the chain reaction that changes ordinary quark matter into degenerate top quark matter:

<https://cobramap.blogspot.com/2022/03/the-toplet-bombs.html>

Quantum anomaly now still manifests as spacetime collapsed into black holes on physical, etheric, astral and mental planes inside the implants, tied to toplet bombs, with collapsed spacetime extending from the implants via tunnels of Set into surrounding space. Low concentration of tunnels of Set can still be found on physical, etheric, astral and mental plane throughout the Solar system, with their concentration increasing in sublunar space, and their concentration being very high on the surface of this planet.

Implants are still rotating in electromagnetic field and are creating an accretion vortex which attracts micro black holes into human energy field (aura). Etheric micro black holes create

areas of collapsed energy field within etheric body which manifest into the physical body as cancer. Astral micro black holes create areas of collapsed energy field in the astral body which manifest as lack of empathy. Mental micro black holes create areas of collapsed energy field in the mental body which manifest as stupidity in a certain specific part of the mental body. The collapsed spacetime was created together with primordial black holes in the inflationary phase shortly after the creation of the universe at the beginning of this cosmic cycle:

<https://academic.oup.com/ptps/article/doi/10.1143/PTPS.136.338/1820044>

This was the first mutation of the primary anomaly and it occurred a fraction of a second after what the physicists call the Big Bang, about 13.7 billion years ago. The second mutation of the primary anomaly occurred when sentient beings began interacting with primary anomaly about 7 million years ago by implanting themselves. Interaction between consciousness and collapsed spacetime within implants created evil.

The third and the last mutation of the primary anomaly occurred in 1996 when much of the suppressed quantum anomaly exploded from the black holes, triggered by the exotic weapons of the Chimera, and much of the until then unmanifested subquantum anomaly began to manifest in the quantum foam.

Most of all this is already cleared, and we are approaching the moment of the apocatastasis:

<https://en.wikipedia.org/wiki/Apocatastasis>

Apocatastasis is the moment when all quantum and subquantum anomaly will be cleared and all evil consciousness either transformed into the Light or annihilated in the Central Sun.

Physicists describe this quantum transition as false vacuum decay:

<https://www.space.com/universe-end-false-vacuum-decay>

They have discovered that this universe is in the exact right condition for something like that to happen. New, stable quantum vacuum will connect the whole universe into one superentangled tachyon field, which will finally allow the unhindered evolution of this universe into the Light: <https://www.sciencenews.org/blog/context/new-einstein-equation-wormholes-quantum-gravity>

One important step in this process will be the opening of a huge energy portal on the surface of this planet in late April / early May 2023. This will definitely be the strongest energetic event in the last few decades. Nothing more can be said about that at this point.

We are finally approaching the time when the Ascended beings will be able to release intel more freely. Until now, there was so much darkness and anomaly present that most surface humanity would simply collapse under the weight of facts, whereas the Resistance would spring in premature action, putting the whole liberation operation in danger. Partial intel was the reason of many unfulfilled hopes and much disappointment, triggering Pavlovian “carrot and stick” response among certain people. As soon as there is enough anomaly removed and enough Light present on the surface of the planet, much intel will be released and everything will be much clearer for many people.

The Future of Humanity and Your Best Possible Timeline

The 9D Arcturian Council via Daniel Scranton - April 20, 2022

Published at Voyages of Light

“Greetings. We are the Arcturian Council. We are pleased to connect with all of you. We are quite ecstatic about the possibilities that we see in front of humanity right now. We see that there is renewed hope within the collective consciousness about where you are headed there on Earth, and we can feel all of those who are connected to the higher realms and their willingness to lead, their willingness to set the positive example to the rest of the collective that we know they can. We are very interested in watching all of this unfold, but we also know that we can help to guide you to the best possible timeline for humanity, and so that is always what we will endeavor to accomplish with you.

We know how many people are aware that they can shift everything in a moment, and we see those numbers growing every single day, which gives us reason to feel hopeful and excited for the future of humanity. We also know that as we guide continuously to go within and feel for that guidance you have, more and more people will start to listen to that sage advice instead of continuously looking for the latest prediction about what will happen.

Remember that you are always choosing and that just because you become aware of a possible, or probable timeline, it doesn't mean you are destined to be on it. Remember that your vibration is everything. Your vibration determines how much you are enjoying the current moment, and it determines what you are expanding into next.

You can always make a sharp left turn or a sharp turn, no matter where you are and no matter how you have been vibrating. The only thing that is set in stone at this point is that you are ascending, and that is because the entire universe, the entire multiverse, is ascending. There is nowhere to go but up, no matter what you are jumping to, but of course you want to jump to that best possible timeline for humanity, and you do so by listening to your gut. Feel for those impulses, those nudges, those intuitive hits that you are continuously getting, and follow that inner wisdom that you have, and know that you will always be on the best possible timeline for you, and you will help to bring so many humans with you to the best possible timeline for humanity.

It is okay to look around and see that certain things could be better and to acknowledge that changes need to be made, but you also have to remain positive in order to help yourselves and others. There is plenty to feel good about there on Earth right now, and those of you who understand the power of positivity must be the ones who are leading the way on this path that humanity is on to ascension. We are the Arcturian Council, and we have enjoyed connecting with you.”

You are infinite & immortal.

It's Priests & Shamans vs. Satanists & Witches as Ukraine War Turns Esoteric

Benjamin Fulford Report - April 18, 2022
www.BenjaminFulford.net

The war in Ukraine has taken an esoteric turn with both sides carrying out mass incantations and invoking spiritual powers. "All the evil forces from all over the planet have been gathering

in one place in Ukraine for the last stand,” is how a Russian FSB source describes the situation. Meanwhile the Khazarian mafia witches, Satanists and neo-Nazis claim they have been preparing for 40 days “an incantation to cure Putin, and Russia.”

“We are ready. Our rite has been developed by a team of serious practitioners from day one. We did a lot of preparatory work, breaking through the defenses of enemies, carefully planning and selecting rituals,” the witches stated.

[Ukrainian Witches To Perform Three-part Ritual To Topple Vladimir Putin \(indiatimes.com\)](#)

In response the Russians “summoned all the Shamans of the North to get the nature gods to protect Russia,” the FSB says. Here you can watch the Shamans at work.

https://benjaminfulford.net/wp-content/uploads/2022/04/shamans.mp4?_1

The Russian Orthodox Church has also publicly stated the Ukrainian government is using “witches and satanic rites” against the Russians. Orthodox Priest Andriy Tkachov says “Ukraine has nothing left but to ask for help from demons.”

The Russians have issued plenty of proof they really are fighting Satan worshipers.

[ROC says Ukrainian authorities use “witches and satanic rites” in war with Russia – video – News84Media.com](#)

For example, after they destroyed a post of the ‘ [Forward Observation Group](#) ,’ an alleged U.S. mercenary unit of former military and special operations currently in Ukraine, the Russians provided evidence they “worship the devil in the truest sense of the word.”

[Satanic Statues Recovered From Russian Missile Strike in Ukraine — Russia Claims U.S. Mercenaries Fighting in Ukraine “Worship the Devil” – DailyVeracity](#)

It is a fact the US special forces command was headed at one point by the self-declared Satanist General Michael Aquino. Aquino has since been sent below to meet his master, according to alliance sources, and now it appears some of his disciples have joined him there.

So let's take another look at the KM people who now run the Western Worlds' financial system and mega-corporations. They explicitly and repeatedly have said “in order to save the environment” they want to kill 90% of the worlds' population of “useless eaters.” After the alliance told them that -if they were sincere in their wish to kill 90% of people- they could prove this by agreeing to be the first to die, the KM have changed their tune. Now they are saying they will put 90% of people on “basic income,” and keep them playing video games while stoned on drugs.

Yuval Harari, the Guru of World Economic Forum head Klaus Schwab Rothschild, says things like: *Humans are now hackable animals, free will, that's over...this story of Jesus rising from the dead, that's fake news...Covid is the moment when surveillance started going under the skin....The biggest question over the coming decades will be what to do with all these useless people.*”

[Something REALLY BAD is About to Fundamentally Change Humanity – \(Pt 1\) – YouTube](#)

What these people really have done though is admit their incompetence by saying they do not know how to make these people “useful.” I will never forget when these people invited me to join them they said “there is no God, we are God.” There may not be a God but we did not create ourselves, something else created us so, there is a creator. The alliance proposes making all humans “useful eaters,” by asking them to plant gardens, support small animals and otherwise contribute to the creation. We are all stewards of our local creation and we can all work to improve it by increasing the number of plants, animals and even silicon, etc., based lifeforms in our local area.

The Khazarian Mafia politburo is the Octagon group headquartered around Lake Geneva in Switzerland. They control Western leaders such as Boris Johnson of the UK, Emmanuelle Macron of France, Justin Castro of Canada and of course the fake regime of Joe Biden. They also control the Pope via his personal security, the Swiss Guard. After Pope Francis went rogue on them, they replaced him, first with a hologram and then with a rubber mask-wearing impostor.

He talks about “‘coprophilia’ or sexual arousal and pleasure from feces, openly supports homosexuality (this is not meant as a homophobic comment but is clearly not the stance of the original Francis) and pushes dangerous vaccines. On Easter, he went further by saying “We find it hard to believe that Jesus has truly risen, that he has truly conquered death. Could it be an illusion? Fruit of our imagination? ”

<https://leozagami.com/2022/04/17/catholic-world-in-shock-as-pope-francis-questions-the-resurrection-of-christ-on-easter-day/>

<https://leozagami.com/2022/04/15/shocking-gay-icon-to-sing-in-st-peters-square-for-easter-monday/>

The battle to overthrow these monsters is going very well for the alliance. After weeks of radio silence, we finally got a hold of a member of an Asian secret society. They said they could not talk on an open line and that they had been maintaining silence for operational security reasons. However, they did say they had scored a series of major victories against the cabal and that more were due soon.

Certainly, Russian victory in Ukraine is becoming increasingly obvious. We will not repeat stuff that has been widely reported elsewhere but stick to information we believe is still not widely disseminated.

For one thing, the Russian FSB says Mariupol has been liberated. They explained they attacked Mariupol and not Kyiv because that is where the Satanic neo-Nazis had their headquarters. The Nazis were openly saying they wanted to kill all Russians.

Under the Nazis, the Ukrainians have been taught for the past 30 years that Ukraine was independent thanks to the Nazis, that the Ukrainians had no genetic connection to the Russians, who were an inferior race, according to French Journalist Thierry Meyssan.

<https://www.voltairenet.org/article216405.html>

“Ukraine was actively dragged into NATO, encouraged in every way to prohibit the Russian language, Russian education, Russian media, arrest people, persecute and even murder independent journalists, was pumped with lethal weapons,” Russian Foreign Minister Sergei Lavrov says.

<https://tass.com/politics/1437567>

In any case, in a clear sign the war is winding down, people have begun pouring back into Ukraine from the EU.

<https://en.interfax.com.ua/news/general/824860.html>

The Russians also provided us with what could be interpreted as a sort of victory statement: We are living now in an amazing time of a very narrow window of opportunity between the fall of the old world and the birth of the new world. We don’t want to just sit back and wait for someone to announce to us how our future will be. Join us to be a creator of new rules and our Future. “Fortune sides with him who dares” — Virgil

By contrast in Canada, that former beacon of freedom and democracy, the Government of Ontario is about to authorize a bill that will give the government the permanent authority to seize your property, including your car and house, just for protesting.

<https://rumble.com/v1071hg-canada-no-longer-a-democracy-as-they-pass-that-allows-government-to-sieze-p.html>

Of course, the Canadians are not taking this lying down and will soon overthrow the KM stooges who illegally seized power under Castro. We also know the Canadian military is also standing by in coordination with the US military white hats for a major counter-offensive against the KM in North America.

The fall of the fake Joe Biden regime is already underway with what can only be described as deliberate attempts to make his so-called presidency an obvious farce. This was seen with him shaking hands with thin air and repeating obvious lies such as that he was a full professor at various universities. Also, his declaration [that Russia is committing “genocide” in Ukraine](#) caused senior officials in his own government to tell the corporate propaganda media that “Intelligence reports on Ukraine currently do not support a genocide designation.”

<https://www.nbcnews.com/politics/national-security/genocide-accusation-russia-biden-willing-get-ahead-government-rcna24601>

The US Space Command also relayed the following intel: “US President Donald Trump is secure and currently at Cheyenne Mountain Space Force Station near Colorado Springs. There were 3 attempts on his life within the past 2 weeks.” The source also said “The KM cabal knows about his double appearing at the rallies” and that “Trump is in close contact with Putin”.

Europe is also breaking decisively with the KM. **In France** presidential candidate Marine Le Pen is calling for **“a strategic rapprochement between NATO and Russia”** as being in the interest of France and Europe as well as the US in order to forestall **“ the emergence of a close Sino-Russian union ,”** <https://nationalpost.com/pmn/news-pmn/frances-le-pen-wants-closer-nato-russia-links-no-frexit>

In another sign Europe is siding with Russia against the KM, German and other European buyers of Russian gas have already agreed to convert payments into rubles, Russian Deputy Prime Minister Alexander Novak says.

<https://tass.com/economy/1438305>

The Jews have also been leading the fight against the KM worldwide and are actively rooting them out in Israel. For example, senior Rabbis denounced and police arrested four members of the “Returning to the Mount” extremist group that is offering a cash prize to anyone who manages to offer a living [Satanic] sacrifice on the Temple Mount.

<https://www.timesofisrael.com/four-extremist-jews-arrested-for-planning-animal-sacrifice-atop-temple-mount/>

The Saudi Arabian government too has acted against the KM by arresting nine prominent judges on charges of high treason. The judges have been ordering mass executions, including those of minors, arresting female activists on trumped-up charges and otherwise revealing through their actions they work for the KM.

<https://www.presstv.ir/Detail/2022/04/15/680361/Nine-prominent-Saudi-judges-arrested,-accused-of-high-treason-as-purge-widens>

Overall, worldwide 9 of the top 10 biggest armies in the world are either on Russia’s side, or are remaining neutral.

<https://benjaminfulford.net/wp-content/uploads/2022/04/biggest-armies-300x300.jpeg>

In addition, according to Pentagon sources “Putin has the Tesla technology to disable the entire fleet of the US, without collateral damage. Speaking about Tesla technology according to the CIA:

This is a Nikola Tesla’s electric car from 1921 running on pure etheric electricity. This is a self-recharging car, it does not run on batteries, oil or gas. Electric vehicles have been around for

much longer than most people realize. This is not even a myth, just a cover-up of our lost technology so that they could bill us every step of the way, and have complete control over us. Free energy = Independence, freedom from the matrix, freedom to go wherever you want, live off the grid, have heat and electricity, and live your life happily without government interference.

<https://benjaminfulford.net/wp-content/uploads/2022/04/air-car-300x266.jpeg>

Of course, our stance on free energy remains the same, while we are hopeful, we will believe it when we can run our own home appliances on such a device.

Finally this week, we will conclude with some x-files type information. We asked our most senior US Space force command source about the cause of the simultaneous 40-degree rise in temperature recorded at the North and South Poles and got this reply:

The magnetic energy of the earth can be manipulated there with the KM Deep State's remaining super weaponry that they still have control over. This could be the same thing that was going on at the end of Atlantis many years ago when the continents shifted/sank. Now we risk even more sea rise b/c the ice before was not in the Antarctic region. The seas could rise several hundred feet if the ice all melts and the weather will be chaotic.

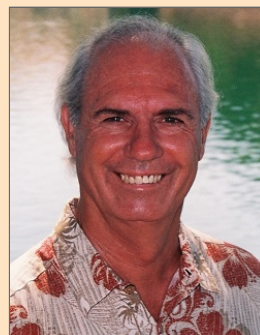

The hot humid temperatures and high CO2 occurring there now could be that they are trying to realign the poles directly to absorb solar energy from the sun to charge a 5 km long steel probe absorbing direct polarization. (Dr Tesla used this method to create unlimited direct current at zero cost). This is dangerous stuff and might make the earth move out of its current orbital distance from the sun and change the seasons.

The Deep State's plan is to create false seasons and create a reflecting blanket in special areas around the world to control the chosen few for their New World Order. The Alliance is watching all of this and has a counter-offensive prepared. Elon Musk and his Starlink satellite system is part of the Alliance's program to defeat the KM Cabal's plans.

We leave it to our readers to decide if this is disinformation or the beginning of long-awaited disclosure about the secret space program. We hope it's true.
